

MOVIX ELECTRIC MOTOR FOR MANUAL POLISHING

Benefits

- 25 000 RPM / 900 W / 230 V
- Powerful electric motor and flexible rod
- No compressed air required, replace ALL pneumatic tools
- Light weight holders enable very accurate polishing
- Various hand-holds: pencil type and hammer type holders available
- Available with different cable diameters and flexible transmission lengths
- Complies with CE standards

High quality and long-life equipment

- Reinforced flexible drive shaft
- Abrasive holders designed for heavy polishing jobs

We also provide **high quality abrasives** especially designed for **high rotation speeds**

SONICAM

MOVIX motor & equipment

MOVIX		
	Ref.	Description
	011.500.100	MOVIX Electric motor with speed inverter
HOLDERS & ACCESSORIES		
	011.500.008	Holder 6PJ
	011.500.009	Holder PRJ
	011.500.010	Holder 90°
	011.500.018	Collet Ø 3,0 mm
	011.500.024	Collet Ø 6,0 mm
	011.500.025	Pack of 50 safety pins in bronze for joint MOVIX
	011.500.086	Oil for holder (125 ml)
	011.500.087	Oil for flexible (125 ml)
MOVIX FLEXIBLES		
	011.500.104	Reinforced flexible drive shaft, cable Ø 6 mm, length 1.20 m (011.500.132 + 011.500.117)
	011.500.107	Reinforced flexible drive shaft, cable Ø 6 mm, length 1.60 m (011.500.134 + 011.500.120)
	011.500.132	Reinforced sheath Ø 15 mm, length 1.20 m
	011.500.134	Reinforced sheath Ø 15 mm, length 1.60 m
	011.500.117	Cable Ø 6 mm, length 1.20 m (for sheath 011.500.132)
	011.500.120	Cable Ø 6 mm, length 1.60 m (for sheath 011.500.134)

- Special equipment upon demand
